# INDEX

<b>Unit 1: Fundamentals of Genetics</b> .....	<b>1</b>
1.1 History of Genetics: .....	1
1.1.1 Mid to Late 19 <sup>th</sup> Century: .....	1
1.1.2 Early 20 <sup>th</sup> Century: .....	2
1.1.3 Mid-20 <sup>th</sup> Century: .....	2
1.1.4 Mid-late 20 <sup>th</sup> Century and the Early 21 <sup>st</sup> Century: .....	2
1.1.5 Mid to Late 19 <sup>th</sup> Century: Evolution, Natural Selection, Particulate Inheritance and Nuclein 1858: .....	3
1.2 Nucleus and Structure of DNA, RNA: .....	6
1.2.1 DNA: .....	6
1.2.2 RNA: .....	9
1.2.3 Genes: .....	14
1.2.4 Genetic Code: .....	15
1.2.5 Chromosomes: .....	19
1.3 Mendelian Analysis: .....	20
1.4 Mendel's Laws of Inheritance: .....	32
1.4.1 Mendel's Law of Dominance: .....	33
1.5 The Principle of Segregation (Test Cross and Back Cross): .....	42
1.6 The Principle of Independent Assortment: .....	44
1.6.1 Examples of Independent Assortment: .....	44
1.7 Pedigree Analysis: .....	47
1.8 Rules of Probability in Genetics: .....	50
1.8.1 Probability Examples: .....	51
1.9 The Chi-Square Goodness of Fit Test and its use in Genetics: .....	53
1.9.1 Pearson's Chi-Square Test for Goodness-of-Fit: .....	53
1.10 Interaction of Genes: .....	58
1.10.1 Types of Gene Interaction: .....	58
1.10.2 Incomplete Dominance: .....	58
1.10.3 Codominance: .....	63
1.11 Lethal Genes: .....	65
1.11.1 Types of Lethal Genes: .....	66
1.12 Sex Chromosomes and Sex-Linked Inheritance: Transmission of Sex- Linked Traits: .....	67
1.12.1 X-linked Genes: .....	69
1.12.2 X-linked Genetic Disorders: .....	70
1.13 Linkage and Chromosome Mapping and its Significance: .....	71
1.14 Linkage: .....	73
1.14.1 Two-Point and Three-Point Crosses: .....	73
1.14.2 Chromosome Mapping: .....	83
1.15 Gene Interaction: .....	85
1.15.1 Mechanism of Gene Interaction: .....	85

1.15.2 Types of Gene Interactions: .....	85
1.15.3 Epistasis: .....	90
1.16 Molecular Basis of Dominance: .....	93
1.17 Pleiotropy: .....	94
1.17.1 Pleiotropy Definition: .....	94
1.17.2 Pleiotropy Examples: .....	95
1.18 Multiple Alleles: .....	99
1.18.1 ABO Blood Groups in Human: .....	100
1.18.2 Fur Colour in Rabbits: .....	102
1.18.3 Characteristics of Multiple Alleles: .....	104
1.18.4 Examples of Multiple Alleles: .....	105

**Unit 2: Maternal Effects and Cytoplasmic Inheritance .....108**

2.1 Maternal Effects in Snails: .....	108
2.2 Streptomycin Resistance in Chlamydomonas: .....	111
2.3 Kappa particles in Paramecium: .....	114
2.4 Plastid Inheritance in Mirabilis Jalapa: .....	116
2.4.1 Plastid, inheritance in four o'clock (Mirabilis jalapa): .....	118
2.5 Male Sterility in Plants: .....	119
2.5.1 Types of Male Sterility: .....	120
2.6 Alterations in Chromosome Number and Structure: .....	123
2.6.1 Significance of Polyploidy: .....	127
2.7 Alteration in Chromosome Structure: Deletions, Duplications, Inversions and Translocations: .....	127
2.8 Mutations: .....	132
2.8.1 Types of Mutations: .....	134
2.9 Molecular Basis of Mutations: .....	135
2.9.1 Features of Molecular Mutations: .....	135
2.9.2 Causes of Molecular Mutation: .....	136
2.9.3 Types of Molecular Mutation: .....	139
2.10 Induced and Spontaneous Mutation: .....	142
2.10.1 Mechanisms of Induction Mutation: .....	142
2.10.2 Role of Induced Mutation in Crop Improvement: .....	146
2.10.3 Mechanisms of Spontaneous Mutation: .....	147
2.11 Biological Repair Mechanisms of Spontaneous Mutation: .....	149
2.11.1 The DNA Repair Mechanisms can be Divided in to Four Categories, viz: .....	149
2.12 Luria and Delbruk Experiment: .....	152
2.13 Newcombe Experiment: .....	153
2.14 Mutation Rate and its Determination, Origin of Spontaneous Mutation: .....	154
2.14.1 Mutation Rates: .....	154
2.14.2 Origin of Spontaneous Mutations: .....	155
2.15 DNA Damages (Deamination of Bases, Alkylation, Damages due to Reactive Oxygen, UV Induced Damage): .....	160
2.15.1 Oxidative Damage: .....	160
2.15.2 Alkylation of Bases: .....	162
2.16 Transposable Elements: .....	163

2.16.1 Types of Transposable Elements: .....	164
2.16.2 Structure of a Transposon: .....	165
2.17 Mismatch Repair:.....	166
2.18 Nucleotide Excision Repair: .....	171
2.19 Recombinational Repair: .....	172
2.20 Genetic Organization and Mechanism of Transposition of Tn5, Tn3 and Related Transposons:.....	174
2.20.1 Functional Organization of Transposon Tn5: .....	174
2.20.2 Mechanism of Tn5 Transposition: .....	176
2.20.3 Regulation of Transposition: .....	177
2.21 Bacteriophage Mu:.....	180
2.21.1 Mu Transposition Mechanism: .....	182
2.21.2 Mu as a Probe for Genome Structure: .....	186
2.22 Retrotransposons: .....	187
2.23 Reverse Mutations and Suppressor Mutations: .....	188
2.23.1 Reversion Mutation: .....	188
2.23.2 Suppression Mutation: .....	189

**Unit 3: Human Genetics..... 191**

3.1 Introduction: .....	191
3.1.1 Gene Mapping Definition: .....	192
3.1.2 Types of Gene Mapping:.....	192
3.1.3 Genetic Mapping Techniques: .....	194
3.1.4 Uses of Gene Mapping:.....	194
3.1.5 Limitations: .....	195
3.2 Genetic Markers: .....	195
3.3 Identifying Human Diseases Genes:.....	197
3.3.1 Functional Classification:.....	197
3.3.2 Characteristics of Gene Function and Disease: .....	198
3.4 Identifying Human Diseases Genes: Principles and Strategies, Position Independent and Positional Cloning:.....	201
3.4.1 Principal and Strategies:.....	203
3.4.2 Position Dependent: .....	203
3.4.3 Positional Cloning:.....	203
3.4.4 Position Independent: .....	204
3.4.5 Functional Cloning:.....	204
3.5 Studying whole Genome: Pulse Field Gel Electrophoresis, Cloning and Sequencing of DNA: .....	206
3.5.1 Cells used for Sequencing:.....	207
3.5.2 Early Techniques:.....	207
3.5.3 Current Techniques: .....	208
3.6 Pulse Field Gel Electrophoresis:.....	209
3.6.1 Types of PFGE:.....	211
3.7 Pedigree Analysis or Patterns of Inheritance– Autosomal Recessive, Dominant, X-Linked Dominant, X-Link Recessive Diseases: .....	214
3.7.1 Pedigree Analysis:.....	214
3.7.2 Patterns that Indicate a RECESSIVE Trait: .....	215

3.8 Monogenic and Polygenic Disorders: An Overview of the Genetic Basis of Syndromes and Disorders:.....	217
3.9 Genetic Susceptibility to Common Diseases:.....	221
3.10 Monogenic and Polygenic Diseases with Well-Known Molecular Pathology	
Monogenic Diseases:.....	223
3.10.1 Huntington Disease:.....	223
3.10.2 Neurofibromatosis types I and II: .....	224
3.10.3 Cystic Fibrosis: .....	224
3.10.4 Hemophilia A-B,:.....	224
3.11 Alkaptonuria: .....	225
3.11.1 Frequency of Alkaptonuria: .....	225
3.11.2 Causes of Alkaptonuria:.....	225
3.11.3 Inheritance of Alkaptonuria: .....	226
3.12 Maple Syrup Urine Disease (MSUD): .....	226
3.13 Albinism: .....	228
3.13.1 Different Types of Albinism:.....	228
3.13.2 Symptoms of Albinism: .....	229
3.13.3 Causes of Albinism:.....	229
3.14 Mucopolysaccharidosis: .....	230
3.14.1 Many Types of MPS: .....	230
3.14.2 Genetics of MPS: .....	231
3.15 Glycogen Storage Disease (GSD):.....	233
3.15.1 Types of GSD: .....	234
3.15.2 Symptoms of Glycogen Storage Disease (GSD): .....	235
3.15.3 Causes GSDs:.....	235
3.16 Lysosomal Storage Diseases: .....	236
3.16.1 Hurler Syndrome:.....	236
3.16.2 Gaucher Disease: .....	237
3.16.3 Niemann-Pick Disease Types A and B:.....	239
3.16.4 Fabry Disease:.....	241
3.16.5 Krabbe Disease: .....	243
3.16.6 Pompe Disease:.....	245
3.17 Stem-Cell Transplantation:.....	246
3.17.1 Types of Stem Cell Transplantation: .....	247
3.18 Adenine Deaminase (ADA): .....	247
3.18.1 Frequency of Adenine Deaminase (ADA):.....	248
3.18.2 Inheritance of Adenine Deaminase (ADA):.....	248
3.18.3 Causes of Adenine Deaminase (ADA): .....	248
3.19 Duchenne Muscular Dystrophy (DMD):.....	249
3.19.1 Symptoms of Duchenne Muscular Dystrophy:.....	250
3.19.2 Causes of Duchenne Muscular Dystrophy:.....	251
3.20 Familial Hypercholesterolemia: .....	252
3.20.1 Symptoms of Familial Hypercholesterolemia: .....	252
3.20.2 Causes of Familial Hypercholesterolemia: .....	253
3.20.3 Risk factors of Familial Hypercholesterolemia: .....	253
3.21 Neoplastic and Infectious Diseases Including Cancer Ethical Issues: .....	253
3.21.1 Symptoms of Infectious Diseases: .....	254
3.21.2 Risk Factors of Infectious Diseases: .....	254

3.21.3 Complications of Infectious Diseases: .....	255
3.21.4 Prevention of Infectious Diseases: .....	255
3.21.5 Diagnosis and Detection of Cancer .....	256
3.22 Future of Gene Therapy:.....	257
3.23 Genetic Disorders of Haemoglobins (Sickle Cell Anaemia, Thalassemia and Haemophilia): .....	258
3.23.1 Sickle Cell Anaemia:.....	259
3.23.2 Thalassemia:.....	261
3.23.3 Hemophilia:.....	263
3.24 Human Mitochondrial Syndromes:.....	263
3.24.1 Mitochondrial DNA (mtDNA):.....	264
3.25 Autoimmunity Diseases:.....	266
3.25.1 Common Autoimmune Diseases:.....	266
3.25.2 Autoimmune disease symptoms:.....	269
3.25.3 Causes Autoimmune Diseases: .....	270
3.26 Systemic Lupus Erythromatosus: .....	270
3.26.1 Symptoms of Systemic Lupus Erythematosus:.....	271
3.26.2 Causes of Systemic Lupus Erythematosus (Lupus): .....	272
3.27 Multiple Sclerosis & Rheumatoid Arthritis:.....	273
3.28 Organ Specific: .....	275
3.28.1 Hashimoto Thyroiditis: .....	275
3.28.2 Auto-immune Anemia and Myasthenia Gravis:.....	280
3.29 Brief Introduction about Primary and Secondary Immunodeficiencies: .....	284
3.29.1 Primary Immunodeficiency (PID):.....	285
3.29.2 Secondary Immunodeficiency (SID):.....	287
3.30 Overview of Human Genome Projects:.....	288
3.31 Ethical, Legal, and Social Implications: .....	290
3.32 Screening for Unknown Mutations:.....	292
3.32.1 Different Types of Mutations:.....	292
3.32.2 Detection of Known Mutations: .....	293
3.33 Pharmacogenetics: .....	297
3.33.1 Definition of Pharmacogenetics:.....	297
3.33.2 Drug Metabolism: .....	297
3.34 Pharacogenomics: .....	300
3.35 Eco Genetics: .....	301
<b>4. Bibliography: .....</b>	<b>306</b>

## About the Authors

**Dr. Ishan Y. Pandya** (DSc.hc., PhD., MSc. Biotechnology, MSc. Zoology, MBA Biotechnology), is Professor (Hon.) of Biotechnology and Human Physiology in Central Christian University, Malawi, East Africa. His researches are noticeable in eco-physiological processes, phytochemical applications in human welfare, and biodiversity & conservation. Collectively, he has 12 years of research and teaching experience. He has been recognised Ecologist from India's most renowned institute 'Gujarat Ecological Education and Research Foundation. He authored 10 books, 25+ research articles in journals of international repute (IEEE, Elsevier) and successfully published 15+ national and international patents. He is seven-time gold medal winner, fellow and life member of esteemed national and international societies including AZRA, ISEB-NBRI, Indian Virological Society, ISCA, ISRP, IBRF, ABRF, ATDS, WAF, IFEE, CEGR, TNSRO-BSS, ISEIS and many others. His efficient and effective teaching nurtured many students and further succeeded as medical doctors, clinicians, and researchers in various domains of science. Recently, he felicitated and honoured with Vigyan Ratna Puruskar, Swami Vivekananda Academic Excellence Award, Biodiversity & Conservation Award, Best Academician Award, Academic Excellence Award, National Bioscience Education and Research Award, Dr Sarvepalli Radhakrishnan Teaching Excellence Award, Hargobind Khorana Best Young Scientist Award, gold medal for research presentation from SMCRC-Australia, and Award for Pioneer in Research (USA) by SAMA.

**Dr. Tanmay Ghosh**, Assistant Professor, Department of Microbiology, Dinabandhu Andrews College, Kolkata, West Bengal, India. He presently working as Assistant Professor, Department of Microbiology, Dinabandhu Andrews College, University of Calcutta. He completed his early study from Tarakeswar High School. He did B.Sc and M.Sc from University of Calcutta in the subject of Microbiology. He did his PhD degree from Department of biotechnology, NIT, Durgapur. He did his PhD degree from Department of biotechnology, NIT, Durgapur. He is now pursuing post doctoral degree (Doctor of Science, D.Sc) from California Public University. His research as well as topic of interest on Agriculture, Microbiology, Seed Pathology and Environment. He has published book on medicinal plants. He is actively engaged in research activity having 65 scientific research articles in international reputed peer-reviewed journal, UGC approved journal and in Scopus listed journal, Springer, Elsevier. He awarded by several prestigious awards like best paper award on Agriculture, Life science, Environment and Biotechnology from International Seminar. He has published 25 international book chapter, has 6 international books written by him. He was awarded by "Hooghly Ratna" for research on Microbiology, Agriculture, Mycology and Bacteriology from Kumud Sahitya Mela. He is an active participant on all sorts of extension activities, regular giving his speech and act as a resource person in all India Radio, Television. He is an expert on organizing of National & International Seminars.

**Pooja Kumawat**, Assistant Professor, Department of Chemistry, Shri Kalyan Rajkiya Kanya Mahavidyalaya Sikar (Rajasthan). She is an Assistant Professor of Chemistry at Shri Kalyan Rajkiya Kanya Mahavidyalaya, Sikar affiliated to Pandit Deendayal Upadhyay University Sikar, Rajasthan, India. She completed her school education from R. K. M. Govt. Girls School Sikar (Rajasthan) and did her Graduation (UG) & Postgraduation (PG) from S.K. Govt. College Sikar / University of Rajasthan Jaipur in the subject of chemistry. She is pursuing her research work in molecular biology, Biochemistry & Computer aided drug design by using computational methods from Department of Chemistry, UCoS, Mohanlal Sukhadia University Udaipur. Her research work as well as topic of interest on molecular biology, pathology & pharmacogenetics, Medicinal Biochemistry, Environment, Green chemistry, Computational chemistry etc. She is a life member of The Indian science congress association (ISCA). She has published a number of research Papers, Review Articles and book chapters in international reputed peer-reviewed scientific journals, UGC approved journals and books. She is an active participant in all sorts of extension activities of institute, an organising member of different e-conferences and delivered lecture as a resource person in e-conference. She has presented a number of research papers in different National & International Seminars/Conferences all over the country.

**Amita Nehra**, Assistant Professor, Department of Chemistry, Shri Kalyan Rajkiya Kanya Mahavidyalaya Sikar (Rajasthan). She is currently working as Assistant Professor of Chemistry at Shri Kalyan Rajkiya Kanya Mahavidyalaya, Sikar, affiliated to Pandit Deendayal Upadhyay University Sikar, Rajasthan, India. She has earned her UG degree and PG degree in chemistry from S.K. Government College, Sikar, University of Rajasthan, Jaipur. She is an active participant in all sorts of extension activities of institute. She has delivered several invited lectures in various institutions. She has presented a number of papers in several national and international seminars/conferences. She has good and advanced knowledge of biochemistry helps us understand several other concepts related to our life processes. Her teaching and research interest covers almost all branch of chemistry however current focus on molecular biology.
