PREFACE

I realize that this book will fulfill the course objective like professional handling and filling prescriptions, patient counseling on diseases and minor ailments, patient counseling on prescription and / or non-prescription drugs, preparation of counseling materials such as patient information leaflets, performing basic health screening tests.

Upon completion of this book, the students will be able to, handle and fill prescriptions in a professional manner, counsel patients on various diseases and minor ailments, counsel patients on prescription and or non-prescription drugs, design and prepare patient information leaflets, perform basic health screening tests.

In any context – will try to preserve the status quo, by all means possible. Having spent 18 years in the field of pharmacy, and having published 50 papers, I feel obliged to share my knowledge, analyses, and conclusions. Hopefully, this account will raise the level of awareness among the budding pharmacist. The beneficiaries will be all of us – ourselves, our children, our beloved ones, and the society.

Acknowledgement

This book is tribute to my beloved mother Late Smt. Usha Rani Ahuja. I acknowledged my father K.L Ahuja and wife Ruchi Ahuja, they inspired me and motivate me to write this book.
